## *Forest District*

---

Near the border, in a very picturesque area, we have almost 8,000 hectares where you can experience hunting adventures. The trophies of the game obtained here are often of medal quotes. Hunters who hunt in our forests speak superlatives about the organization, service and setting of hunting and the hunting grounds on offer. These opinions are confirmed by the fact that guests come back to us every season. The Animal Breeding Center area of the Cybinka Forest District is located very close to the border crossing in Świecko with very good access from the main national roads.
